PROFESSIONAL SUMMARY

Results-driven Computer Science Engineering student specializing in Full Stack Development and Data Science. Passionate about building scalable web applications using the MERN stack and leveraging machine learning for data-driven solutions. Experienced in software development, API integration, and database management, with a strong foundation in data preprocessing and analysis. Adept at team collaboration, content strategy, and project management, demonstrated through leadership roles in IRIS Club and Hackathons. Always eager to learn new technologies and contribute to innovative projects.

WORK EXPERIENCE

Intern - Data Science

Corizo Company | July 2024 - August 2024

Content Head - IRIS Club, MITWPU

August 2024 - Present

Leading content strategy and creation for social media, newsletters, and events.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

MIT World Peace University, Pune | 2022 - Present

CGPA: 8.5/10

SKILLS

- Python
- JavaScript
- HTML
- CSS
- React.js
- Next.js
- MongoDB
- MySQL

CERTIFICATIONS

Web Development, Data Science, Database Management

PROJECTS

Built a classifier to predict Pass/Fail yield in semiconductor manufacturing using sensor data.

Performed data preprocessing, feature selection, and model evaluation.

Worked with Python, Pandas, Scikit-learn, and PySpark for data analysis.

ACHIEVEMENTS

Dean's List, SIH'25 Hackathon Winner

VOLUNTEER EXPERIENCE

Managed a team of writers to improve engagement and outreach.

Organized an orientation event and an upcoming podcast with a public figure.

INTERESTS

- Traveling
- Coding
